

PrintPeel™

Stock and Customized Solutions

Print Variable Data on Unique Tag Shapes! *Combines Offset Design Options with Laser Flexibility*

PrintPeel™ is tag material carried on a liner that can be printed with variable data utilizing our SATO high-speed laser printers.

The tag may be preprinted on both sides and variable imprinted on the face-up side. When the tag is removed from the liner, it is dry (no adhesive, no residue).

FEATURES	FUNCTION	BENEFIT
Round Corners/Smooth Edges	Tags without shoulders or hooks	Prevents tags from snagging on merchandise
Unique Shapes	Variety of shapes and sizes	Merchandising and marketing teams have more options to create interesting designs for brand identification and information sharing
Multiple Shapes per Page	Reduce the number of separate stocks	One page can contain branding, marketing and price tags — when the tags are all in one place, they are harder to lose and easier to apply to merchandise.
Dual-Sided Preprint	Preprint copy on both front and back of ticket	Allows for brand identification on both sides of tag
Precut	No post-print cutting operation required	Reduced costs — no cutting equipment or labor; keep less inventory on hand
