

The Turn-O-Matic[®] System is a widely recognized and accepted queue management system that provides fair, organized and efficient customer service. Proven to drive sales and effectively manage customer flow, Turn-O-Matic creates satisfied, repeat customers.

Suggested Uses

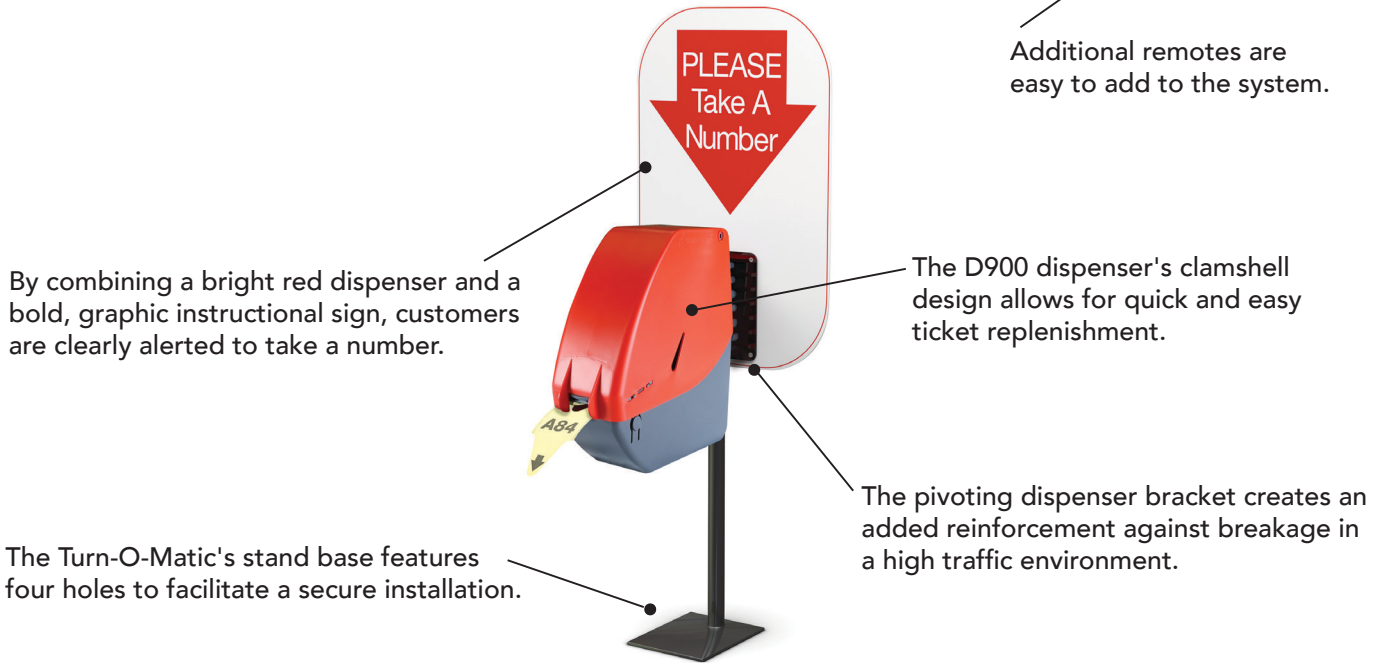

- Customer Service Desks
- University Offices
- DMV Locations
- Hospital Waiting Rooms
- Deli Counters

Benefits

- Reduces Queue Length
- Ensures Fair Service
- Increases Service Efficiency
- Increases Impulse Purchases
- Easy and Intuitive to Install
- Move Around Freely With the Wireless Remote
- Wireless System Eliminates Need for Additional Cable Installation

Additional remotes are easy to add to the system.

By combining a bright red dispenser and a bold, graphic instructional sign, customers are clearly alerted to take a number.

The D900 dispenser's clamshell design allows for quick and easy ticket replenishment.

The pivoting dispenser bracket creates an added reinforcement against breakage in a high traffic environment.

The Turn-O-Matic's stand base features four holes to facilitate a secure installation.
